# MENU

In our Scandic restaurants, we respect good food. Our chefs value the Danish and Nordic traditions, using fresh seasonal ingredients. We are into the natural, the simple and the local. Yet, we still have the courage to be inspired by other regions of the world, if the taste is right.

Our Head Chef has a particular passion for local ingredients. We have selected Danish, free range Angus beef, which makes us able to offer you the finest cuts possible.

The majority of our fish are caught along the Danish coasts and landed the very same day they are pulled from the sea. Our chickens are 100% free range where focus on space and feed are securing them a better life. All in respect for animal welfare, sustainability and great taste

Welcome and enjoy!

---
